1. Overview

- 1.1 We are committed to using Information and Communication Technology and all it offers to promote learning in the most effective and appropriate way at our School - for the benefit of our pupils, staff and community. To this end, we have developed this Policy, to provide safeguards and ensure that all members of our School community understand the benefits, risks and what is expected of them when they use ICT in the learning environment.
- 1.2 Our policy consists of:
 - Statements outlining our School's approach and attitudes towards using Information & Communications Technologies safely and responsibly
 - Clear guidelines and rules for acceptable use of ICT.
 - There are also Internet Use Agreements, to be signed by parents and pupils, and staff.
- 1.3 The E-Safety Policy will operate in conjunction with other policies including those for ICT, behaviour, bullying, curriculum, child protection, data protection and security. The School's ICT subject leader will also act as the e-safety coordinator. The e-Safety Policy and its implementation will be reviewed regularly to ensure that it remains fit for purpose.

2. Why Internet Use is Important

- 2.1 We believe the internet is an essential element in the 21st century life for education, business and social interaction.
- 2.2 The School recognises its duty to provide children with quality Internet access as part of their learning experience.
- 2.3 Using the internet and ICT in general is a part of the statutory curriculum and a necessary tool for staff and pupils.
- 2.4 Pupils are increasingly using the internet and a range of ICT devices outside of School life and therefore need to learn how to evaluate information and to take care of their own safety and security.

3. Using the Internet for Learning in Broadwindsor School

- 3.1 We teach all of our pupils how to find appropriate information on the internet and how to ensure as far as possible, that they understand who has made this information available and how accurate and truthful it is.
- 3.2 Teachers carefully plan all internet-based teaching and lessons to ensure that pupils are focused and using appropriate and relevant materials.
- 3.3 Children are taught how to use search engines and how to evaluate internet-based information as part of the ICT curriculum, and in other curriculum areas where necessary.
- 3.4 Pupils are taught what internet use is acceptable and what is not and given clear objectives for internet use.
- 3.5 Pupils are educated in the effective use of the internet in research, including the skills of knowledge location, retrieval and evaluation.
- 3.6 Pupils in Key Stage 1 will not be permitted to 'free-surf' the web. In Key Stage 1 and typically in Key Stage 2, pupils' internet access will be through a selection of evaluated sites suitable for the purposes of the task.
- 3.7 Processes are in place for dealing with any unsuitable material that is found during internet use (see section on managing filtering).
- 3.8 Where pupils are allowed to freely search the internet, e.g. using search engines, staff are vigilant in monitoring the content of the websites the young people visit. Pupils who need to search individually will be in the upper primary years. Teachers, wherever possible, will have viewed the content prior to use to check its relevance and suitability.
- 3.9 The School's internet access includes filtering appropriate to the age of our pupils which is provided by an approved supplier.

- 3.10 The School enables the pupils to access the internet at lunchtime as part of a range of activities for young people. There are clear guidelines (see appendix 1) as to what is accessed and it is monitored by the SLT on duty at lunchtime, regulated in access by the teaching staff and supported by specialist ICT support staff.

4. Evaluating Internet Content

- 4.1 The School will ensure that staff and pupils are mindful of copyright regulations when copying, downloading and representing materials from the internet. Web-based resources have similar copyright status to printed and recorded materials, such as books, films and music, and this must be taken into consideration when using them.
- 4.2 Pupils, during Key Stage 2, will be taught to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.
- 4.3 Pupils will be taught how to carry out simple checks for bias and misinformation.
- 4.4 Pupils will be taught to acknowledge the source of information used and to respect copyright when using internet material in their own work.

5. Internet Use by Staff

- 5.1 Our School understands that the internet is a valuable resource for School staff. It provides a wealth of resources, teaching materials and information that we can use to support and enhance learning. It allows staff to share resources with other schools, and to engage in debate and discussion on educational topics and news.
- 5.2 It also provides an efficient way to access information from the Department for Education and other government agencies and departments that will help staff to keep abreast of national and local developments.
- 5.3 There are also increasing opportunities for staff to access INSET and Continuing Professional Development activities using the Internet and e-learning resources.
- 5.4 We are committed to encouraging and supporting our School staff to make the best use of ICT and all the opportunities it offers to enhance our teaching and support learning.
- 5.5 Staff use of the internet on School computers will be responsible and legal at all times and in keeping with their professional role and responsibility. Misuse of the internet and School computer systems will be rigorously investigated.

6. E-mail

- 6.1 E-mail is one of the many modes of communication which plays an important role in many aspects of our lives today. We teach the use of e-mail as part of our ICT curriculum by means of safe sites such as www.epals.com. This is a secure means of children communicating with children in other schools. Open email contact is not possible. This provides a limited facility and yet it gives all the structure of using actual email.
- 6.2 In spite of this not being an open facility the opportunity is taken to educate children to be aware of the benefits and risks and how to be safe and responsible users as part of our e-safety provision.
- 6.3 Pupils are taught strategies to deal with inappropriate emails and are reminded of the need to write emails clearly and correctly, not including any unsuitable or abusive material.
- 6.4 Pupils are taught not to reveal personal details of themselves or others in e-mail communication, nor to arrange to meet anyone without specific permission.
- 6.5 Staff are encouraged to use the School email service and accounts that are available. They are more secure and are easier to access by a third party should the need for scrutiny arise. Personal web based email accounts are also permitted but discouraged for professional communications.

- 6.6 Staff should always ensure that they represent the School in a professional and appropriate way when sending e-mail, contributing to online discussions or posting to public websites. Failure to do so could lead to disciplinary action being taken.

7. Published Content and the School Website

- 7.1 The contact details on the School web site will be the School address, e-mail and telephone number.
- 7.2 Individual personal contact information will not be published.
- 7.3 The Headteacher will take overall editorial responsibility and ensure that content is accurate and appropriate. It will be the responsibility of other staff, personally or by delegation to update the website regularly.
- 7.4 The School maintains a separate website policy and has a clear policy attached to its website.

8. Publishing Pupils' Images and Work

- 8.1 The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images and video that they have recorded themselves or downloaded from the internet. However, staff and pupils need to be aware of the risks associated with sharing images and with posting digital images / video on the internet. Those images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term.
- 8.2 The School will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm.
- 8.3 Staff are allowed to take digital / video images to support educational aims, but must follow the School policy concerning the sharing, distribution and publication of those images which states that:
- Care should be taken when taking digital / video images that students / pupils are appropriately dressed and are not participating in activities that might bring the individuals or the School into disrepute or danger;
 - Nobody should take, use, share, publish or distribute images of others without their permission;
 - Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images;
 - Pupils' full names will not be used anywhere on the website or learning platform, particularly in association with photographs;
 - Parents or carers are informed of our policy on publishing and are able to opt their children out.

9. Communication Technologies – Including Chat, Forums, Blogs, Instant Messenger Services, Social Networking Sites

- 9.1 Most of these modes of electronic communication are restricted in the School however they are being used more frequently by pupils and staff outside of the School.
- 9.2 We acknowledge social networking sites, blogs, instant messenger services, chat rooms and forums are beneficial for communication, learning and research. They also present a range of personal safety and privacy issues.
- 9.3 In School time, pupils and staff are not permitted to access social networking sites, public chat rooms, discussion groups and forums etc. using School resources. Most are blocked by the filtering service used by the School.

10. Mobile Phones and Other Handheld Devices (Including those that are Internet Enabled)

- 10.1 We anticipate that more and more of our pupils will have access to internet-enabled devices such as mobile phones or other hand held devices which are capable of browsing and uploading to the internet, accessing email and social networking services, as well as taking photos and recording video.
- 10.2 The School recognises the potential advantages these devices can offer for staff and pupils and there are clear and enforceable rules for their use.
- 10.3 Pupils are taught the legal and moral implications of posting photos and personal information from mobile phones to public websites and how to use these technologies in a safe and responsible manner.
- 10.4 Children must not bring mobile phones to the School. Only in exceptional, prior arranged circumstances will the School permit mobile phones belonging to pupils on the School premises during School sessions. If such a set of circumstances is deemed necessary, the mobile phone will be kept securely by the school office and returned at the end of the school day.
- 10.5 Staff should represent the School in a professional and appropriate way when communicating via the internet, contributing to online discussions or posting to public websites using School facilities.

11. Electronic Communications with Children by Staff

- 11.1 Communication between children and School staff should take place within clear and explicit professional boundaries.
- 11.2 Staff must be careful not to share any personal information with children such as email, web based communication facilities, home or mobile numbers. They should not request, or respond to, any personal information from the child / young person, other than that which might be appropriate as part of their professional role.
- 11.3 Staff should ensure that all communications are transparent and open to scrutiny. In addition all staff must be sure of their social networking and uphold professional confidentiality at all times. As a staff we have agreed that we should not accept pupils as 'friends' on social contact sites such as Facebook.

12. Downloads & Copyright

- 12.1 The Internet is a rich source of free files, applications, software, games and other material that can be downloaded and installed on a computer. Whilst some of this material may be useful, much is inappropriate, and may adversely affect the performance and reliability of School equipment.
- 12.2 Pupils are not allowed to download any material from the internet unless directed to do so by an appropriate staff member.
- 12.3 Staff should take care that files from both other computers outside the School and internet are checked for virus contamination before they are used on the School system.
- 12.4 Pupils are not allowed to use CDs, DVDs or memory sticks brought from home or, for example, from magazines unless they have been given permission.
- 12.5 The School subscribes to suitable antivirus software. The software is updated regularly and virus detection is monitored by the School's technician.
- 12.6 Staff and Students are responsible for ensuring they have the appropriate copyright licence for the use of any content or media being used.
All copyrighted material must be obtained from a legitimate licensed source.
The use of file sharing software is forbidden over the school network
The use of any website must be used within accordance of the website terms and conditions.

13. Managing Filtering

- 13.1 Whilst filtering technology is robust and generally effective at blocking unsuitable material, it is still possible for unsuitable material to occasionally get past the filter. Pupils are taught to always report such experiences directly to an adult at the time they occur, so that action can be taken.
- 13.2 The action will include:

1. Making a note of the website and any other websites linked to it;
2. Informing the ICT leader and Headteacher;
3. Logging the incident;
4. Informing the Internet Service Provider so that the website can be added to the content filter if appropriate;
5. Discussion with the pupil about the incident, and how they might avoid similar experiences in future
6. Parents will be informed where necessary.

- 13.3 The School will work with the local authority, CEOPS and our Internet Service Provider to ensure systems to protect pupils and staff are effective and appropriate.
- 13.4 Pupils or staff who deliberately try and access unsuitable materials will be dealt with in accordance with the School's discipline policies for pupils and staff.

14. Managing Emerging Technologies, Video-Conferencing and Electronic Resources for Learning

- 14.1 Emerging technologies and resources will be examined for educational benefit and a risk assessment will be carried out before use in the School is permitted.

15. Online bullying

Online bullying (along with all other forms of bullying) of any member of the school community will not be tolerated. Full details are set out in the school's policy on anti-bullying and behaviour.

The school will follow procedures in place to support anyone in the school community affected by online bullying.

Pupils and staff are made aware of a range of ways of reporting concerns about online bullying. This may be by; telling a trusted adult, Online bully box, Childline App and phone number 0800 1111, POSH helpline 0344 381 4772.

Pupils, staff and parents and carers are informed of their responsibilities to report any incidents of online bullying and advised to keep electronic evidence.

All incidents of online bullying reported to the school will be recorded by the school.

The school will follow procedures to investigate incidents or allegations of online bullying.

The school will take steps where possible and appropriate, to identify the bully. This may include examining school system logs, identifying and interviewing possible witnesses, and contacting the service provider and the police.

Pupils, staff and parents and carers will be required to work with the school to support the approach to online bullying and the school's Online Safety ethos.

Sanctions for those involved in online bullying will follow those for other bullying incidents as indicated in the schools Behaviour Policy or AUP and may include:

- the bully being asked to remove any material deemed to be inappropriate or the service provider being contacted to remove content if the bully refuses or is unable to delete content
- internet access being suspended at the school for a period of time.
- the parent and carers of pupils being informed
- the police being contacted if a criminal offence is suspected

16. Sexting

The school will provide appropriate support for sexting incidents which take place in and out of school. Within school, any device which has an illegal image of a child under 18, or is suspected of having such an image, will be secured and switched off. This will then be reported to the Designated Safeguarding Lead (DSL). An individual member of staff will not investigate, delete or pass on the image. The Designated Safeguarding Lead (DSL) will record any incident of sexting and the actions taken in line with advice from Dorset Local Authority.

17. Prevent

The school works to ensure children are safe from terrorist and extremist material when accessing the internet on the premises. Appropriate levels of filtering are in place through a managed filtering service which includes terms related to terrorism. Appropriate monitoring of internet use will identify attempts to access such material. Children are educated to evaluate information accessed with a reporting procedure that identifies inappropriate sites so that action, including blocking, can be put into place. Further details around Prevent are contained within the Prevent Duty Policy and other Safeguarding Policies. Staff receive regular training around Prevent and know the importance of raising concerns early to the Headteacher.

18. Authorising Internet Access

- 18.1 All staff must read and sign the 'Acceptable ICT Use Agreement' before using any School ICT resource.
- 18.2 The School will keep a record of all staff and pupils who are granted internet access. The record will be kept up-to-date, for instance a member of staff may leave or a pupil's access be withdrawn.
- 18.3 At Key Stage 1, access to the internet will be by adult demonstration with occasional directly supervised access to specific, approved on-line materials. Parents are asked to sign and return a consent form when their child starts at the School.

19. Assessing Risks

- 19.1 The School will take all reasonable precautions to ensure that users access only appropriate material. However, due to the international scale and linked nature of Internet content, it is not possible to guarantee that unsuitable material will never appear on a School computer.
- 19.2 The School cannot accept liability for the material accessed, or any consequences of Internet access.
- 19.3 The School will audit ICT provision to establish if the E-safety policy is adequate and that its implementation is effective.

20. Handling E-Safety Complaints

- 20.1 Any complaint about staff misuse must be referred to the Headteacher.
- 20.2 Complaints of a child protection nature must be dealt with in accordance with the School Child Protection procedures.
- 20.3 Pupils and parents will be informed of the complaints procedure.

21. Introducing the E-Safety Policy to Pupils

- 21.1 E-safety rules will be posted in all networked rooms and discussed with the pupils at the start of each year.
- 21.2 Pupils will be informed that network and Internet use can be monitored.

22. Staff and the E-Safety policy

- 22.1 All staff will be given access to the School E-Safety Policy and its importance will be explained. A programme of E-safety training will be available to staff who can also discuss matters with the E-Safety Coordinator on an ad-hoc basis.
- 22.2 Staff should be aware that internet traffic can be monitored and traced to the individual user.
- 22.3 Discretion and professional conduct is essential.
- 22.4 All new staff should receive E-safety training as part of their induction programme, ensuring that they fully understand the School Acceptable Use Policy
- 22.5 The E-Safety Coordinator will receive regular updates through attendance at training sessions and/or by reviewing guidance documents released by appropriate authorities and providers.

23. Enlisting Parental Support

- 23.1 Some parents and carers might have a limited understanding of E-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of children's on-line experiences.
- 23.2 Parents often either underestimate or do not realise how often children and young people come across potentially harmful and inappropriate material on the internet and are often unsure about what they would do about it.
- 23.3 The School provides information and awareness to parents and carers through:
 - Information in School newsletters;
 - Links to resources from the School website;
 - Parent workshops.
- 23.4 NOS Safety guides for parents are available on the school website.

24. Governors

- 24.1 Governors should take part in e-safety training / awareness sessions, with particular importance for those who are members of any sub-committee / group involved in ICT / E-safety/ health and safety / child protection.
- 24.2 This may be offered in a number of ways:
 - Attendance at training provided by the Local Authority / National Governor Association or other relevant organisation;
 - Participation in School training / information sessions for staff or parents.

E SAFETY POLICY – Sept 2020

I.....confirm I have read the E Safety Policy and agree to abide by the statements therein.
